POTENT

CLASS 4 | APIS | MALTA
OEL DOWN TO 40 ng/m³ | IP SITUATION ADVANTAGE

 medichem

Medichem opened a new High Potency API unit, located in Hal Far (Malta) in May 2014.

HPAPI MODULAR FACILITY

R&D ISOLATOR EQUIPMENT SET UP

PROCESSING AND DISPENSING ISOLATOR

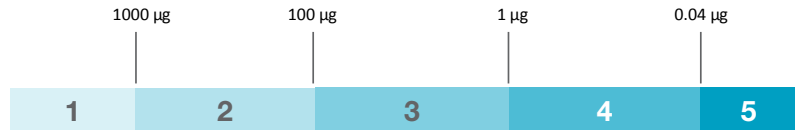

REACTOR CHARGING ISOLATOR

UNIQUE CAPABILITIES

OEL* DOWN TO 40 ng/m³

We produce Class 4 HPAPIs with OEL* down to 40 ng/m³ within current GMP and FDA inspected environments.

MEDICHEM OEL CLASSIFICATION / *Occupational Exposure Limit

IP SITUATION ADVANTAGE

Malta gives us a unique advantage concerning IP framework allowing Medichem to develop and produce **HPAPI in advance of patent expiry** and offering **first-to-market opportunities** to its customers worldwide.

MANUFACTURING FACILITIES

HPAPI modular laboratory is a multipurpose facility that is fully equipped for the synthesis of Highly Potent APIs **from the very early R&D phases through process development and to manufacturing.**

The HPAPI modular laboratory is composed of different areas dedicated to R&D and Kilo-Lab activities. The GMP Kilo-lab unit includes:

- 2x 15L reactors
- Filter
- Dryer
- Mill
- Micronizer

MEDICHEM IN A FLASH

- 40+ years in the industry
- cGMP company
- FDA inspected since 1985
- Both plants (Spain and Malta) are no "Form 483"
- ISO 9001 & ISO 14001 certified
