Technologies

- High shear mixer
- Fluid bed dryer and Wurster
- Blending
- Roller compactor
- Compression machine
- Coating
- Hard capsule filling, both powder and pellets
- Packaging:
 - BLISTER LINE: hot (Alu/Alu) and cold (PVC, PVdC, Aclar) forming and subsequent secondary packaging of various pack sizes
 - BOTTLE LINE

Medichem and Combino Pharm Malta

Medichem and Combino Pharm manufacturing plants started operations in Malta in 2005. Medichem Malta is a US FDA inspected plant with "No Form 483" status since 2012 (2 inspections since then), specialized in manufacturing of API including Highly Potent APIs. Combino Pharm Malta specializes in oral solid dosage forms. The first ANDA from Combino Pharm Malta is planned to be filed in 2016.
